2005-2006

Holding university degrees	91%
Holding master degrees	27%
Having received teacher training	100%
Having attained the Language Proficiency Requirements specified by the EMB.	91%

## A New Departmental Publication

Since 2001, our school has successfully organized four overseas education tours and more than 150 students and teachers have gone to either Australia or New Zealand for an educational purpose. To share our experience in organizing school-based overseas education tours with our locals and those schools interested in holding a similar activity, a book entitled "Organising School Overseas Education Tours: From Initiation to Implementation" has been produced. Since the book is mainly a joint effort of those teachers and students who joined the overseas education tours before, the contents of the book are both practical and resourceful. The ISBN of the book is 988-98400-2-2 and its selling prize is HK\$50.
